

**PUBLIC NOTICE OF AVAILABILITY  
FOR FRESNO CHANDLER EXECUTIVE AIRPORT**

---

Notice is hereby given that the Federal Aviation Administration (FAA) has reviewed an Environmental Assessment (EA) and prepared a Finding of No Significant Impact (FONSI) for proposed northside development at Fresno Chandler Executive Airport. The EA has been prepared pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, and Council on Environmental Quality (CEQ) Regulations.

The EA analyzes the environmental consequences that may result from the following specific improvements:

- Construction of parallel Taxiway H and three taxiways connecting to Runway 12-30.
- Construction of vehicular access points to new north side development area from West Whitesbridge Road and West Amador Avenue.
- Construction of automobile parking areas.
- Development of a public general aviation terminal building that will also be utilized by a full service fixed base operator (FBO).
- Construction of an aircraft maintenance/storage hangar east of the general aviation terminal building and associated apron pavement.
- Construction of four rows of aircraft storage hangars and associated taxilanes.
- Construction of 15 rows of T-hangars and associated taxilanes.
- Construction of six conventional hangars and associated apron pavement.
- Storm drainage improvements to accommodate new north side development projects.
- Construction of perimeter roads around the northwest and southeast ends of the airfield.

The EA includes measures to reduce or prevent environmental consequences and compares the proposed action and alternatives in terms of environmental effect. The Finding of No Significant Impact (FONSI) sets forth the FAA determination of aviation safety and environmental factors regarding the project, and the FAA's decision regarding these factors.
